We have a pre-construction meeting today at 2:00 PM. At that time, Bank layout (survey work) and positioning trailer schedule will be determined. I will be able to provide the LDW mobilization date later this afternoon after 2. The projected date at this time is the 12th.

Is mobilization for the coffer dam installation happening today as indicated by the Section 10 memo ?

Ravi,

The sheet steel left in the upper bank after the coffer dam has been removed from the water will not make contact with the water. The sheet steel is 4 feet above MHHW.

Miles and Will is the landward section of the coffer dam that will remain in place (after the in-water dredging is completed) located above MHHW (ie outside a water of the US)?

In otherwords, is the coffer dam officially outside a "water of the US", ie above MHHW? It needs to be.

Please let me know ASAP, thanks !

Ravi

Please find attached a memorandum in response to your email requesting information pertaining to Section 10 (Rivers and Harbors Act) of the Clean Water Act.

Thank you for your continuing assistance.

Subject: Section 10 of the Rivers and Harbors Act

Will and Miles – It looks like JF/Boeing will need to meet substantive compliance of Section 10 (Rivers and Harbors Act) of the CWA. This would require a memo to the agency (me) that documents when the coffer dam would be installed, the dimensions of the dam, purpose, depth etc and that it would not adversely affect navigability because it will be clearly tagged (state how) and that the USCG would be informed and when the dam would be removed. I'll be out Tues (tomorrow), but let's talk Wed about this issue.
